

Plantronics Cordless Telephone Headset Amplifier

Leave your desk, talk on the phone,
and listen to your caller
up to 150 feet (45.7 m)
away from the base unit.

FEATURES

- » Adjustable volume control.
- » Phone, talk, charge, and mute indicator lights.
- » Connects to single- or multi-line corded telephones.
- » Six-hour continuous talk time on rechargeable battery.

OVERVIEW

Never miss an important phone call again! The Cordless Telephone Headset Amplifier from Plantronics® (CA10) works with the DuoSet Headset (H141) to give you hands-free conversations. The amplifier (CA10) and headset (H141) are available together as a package (CS10).

The amplifier features a 2.5-mm to Quick Disconnect cable to connect to the headset. For more information about the DuoSet Headset, see Product Data Sheet 24710.

The amplifier also works with other Plantronics headsets equipped with the Quick Disconnect cable (for example, H141N).

Other amplifier features include a channel changer, as well as phone, talk, charge, and mute indicator lights. The adjustable tone control and transmit on the amplifier provide superior sound quality. And the battery provides six hours of continuous talk time.

Talk on the phone and answer calls (with optional Plantronics Handset Lifter, HL10) up to 150 feet (45.7 m) away from the base unit.

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
